Adger, W.N., *see* Brown, K. et al.
Albrektson, A., *see* Nilsson, U. et al.
Bagyaraj, D.J., *see* Vasanthakrishna, M. et al.
Battisti, A., *see* Marchisio, C. et al.
Beier, C., *see* De Visser, P.H.B. et al.
Beier, C., *see* Farrell, E.P. et al.
Black, T.A., *see* Fleming, R.L. et al.
Blanck, K., *see* De Visser, P.H.B. et al.
Blanck, K., *see* Farrell, E.P. et al.
Boucher, D.H., Vandermeer, J.H., Mallona, M.A., Zamora, N. and Perfecto, I.
Resistance and resilience in a directly regenerating rainforest: Nicaraguan trees of the Vochysiaceae after Hurricane Joan 127
Boxman, A.W., Van Dijk, H.F.G. and Roelofs, J.G.M.
Soil and vegetation responses to decreased atmospheric nitrogen and sulphur inputs into a Scots pine stand in the Netherlands 39
Brahmer, G.
Effects of whole catchment liming and Mg addition on soil water and runoff at two forested watersheds in the Black Forest (Germany) 47
Bredemeier, M., *see* De Visser, P.H.B. et al.
Bredemeier, M., *see* Farrell, E.P. et al.
Brown, K. and Adger, W.N.
Economic and political feasibility of international carbon offsets 217
Burk, T.E., *see* Droessler, T.D. et al.
Burton, P.J., *see* Cumming, S.G. et al.
Cescatti, A., *see* Marchisio, C. et al.
Cleveland, B. and Kjelgren, R.
Establishment of six tree species on deep-tilled minesoil during reclamation 273
Collins, J.F., *see* Farrell, E.P. et al.
Cumming, S.G., Burton, P.J., Prahacs, S. and Garland, M.R.
Potential conflicts between timber supply and habitat protection in the boreal mixedwood of Alberta, Canada: a simulation study 281
Cummins, T., *see* De Visser, P.H.B. et al.
Cummins, T., *see* Farrell, E.P. et al.
Dalziel, T.R.K., Wilson, E.J. and Proctor, M.V.
The effectiveness of catchment liming in restoring acid waters at Loch Fleet, Galloway, Scotland 107
De Visser, P.H.B., *see* Farrell, E.P. et al.
De Visser, P.H.B., Beier, C., Rasmussen, L., Kreutzer, K., Steinberg, N., Bredemeier, M., Blanck, K., Farrell, E.P. and Cummins, T.
Biological response of five forest ecosystems in the EXMAN project to input changes of water, nutrients and atmospheric loads 15
Driscoll, C.T., *see* Mitchell, M.J. et al.
Droessler, T.D. and Burk, T.E.
Modeling individual tree growth using temporary plot records: evaluation of a non-parametric diameter distribution based method 325
Eldridge, N.R., *see* Fleming, R.L. et al.
Farrell, E.P., *see* De Visser, P.H.B. et al.
Farrell, E.P., Cummins, T., Collins, J.F., Beier, C., Blanck, K., Bredemeier, M., De Visser, P.H.B., Kreutzer, K., Rasmussen, L., Rothe, A. and Steinberg, N.
A comparison of sites in the EXMAN project, with respect to atmospheric deposition and the chemical composition of the soil solution and foliage 3
Fernandez, I.J., *see* Norton, S.A. et al.
Fleming, R.L., Black, T.A. and Eldridge, N.R.
Effects of site preparation on root zone soil water regimes in high-elevation forest clearcuts 173
Garland, M.R., *see* Cumming, S.G. et al.
Gracia, C.A., *see* Sabaté, S. et al.
Haines, T.A., *see* Norton, S.A. et al.
Hamerlynck, E.P. and Knapp, A.K.
Leaf-level responses to light and temperature in two co-occurring *Quercus* (Fagaceae) species: implications for tree distribution patterns 149
Hamilton, Jr., D.A. and Rehfeldt, G.E.
Using individual tree growth projection models to estimate stand-level gains attributable to genetically improved stock 189
Hicks, Jr., R.R., *see* Mudrick, D.A. et al.
Hoosein, M., *see* Mudrick, D.A. et al.
Iwatsubo, G. and Nagayama, Y.
Effects of sewage-water spraying on mineral cycling in a forest ecosystem 75
Kahl, J.S., *see* Norton, S.A. et al.
Keenan, R.J., Messier, C. and Kimmins, J.P.H.
Effects of clearcutting and soil mixing on soil properties and understorey biomass in western red cedar and western hemlock forests on northern Vancouver Island, Canada 251

Kimmins, J.P.H., *see* Keenan, R.J. et al.
Kjelgren, R., *see* Cleveland, B. et al.
Kjøller, A., *see* Nielsen, T. et al.
Kleinn, C.
Comparison of the performance of line sampling to other forms of cluster sampling 365
Klinka, K., *see* Wang, G.G. et al.
Knapp, A.K., *see* Hamerlynck, E.P. et al.
Kreutzer, K., *see* De Visser, P.H.B. et al.
Kreutzer, K., *see* Farrell, E.P. et al.
Mallona, M.A., *see* Boucher, D.H. et al.
Marchisio, C., Cescatti, A. and Battisti, A.
Climate, soils and *Cephalcia arvensis* outbreaks on *Picea abies* in the Italian Alps 375
Marshall, P.L., *see* Wang, G.G. et al.
Mayor, X. and Rodà, F.
Effects of irrigation and fertilization on stem diameter growth in a Mediterranean holm oak forest 119
Messier, C., *see* Keenan, R.J. et al.
Messier, C. and Mitchell, A.K.
Effects of thinning in a 43-year-old Douglas-fir stand on above- and below-ground biomass allocation and leaf structure of understory *Gaultheria shallon* 263
Mitchell, A.K., *see* Messier, C. et al.
Mitchell, M.J., Driscoll, C.T., Porter, J.H., Raynal, D.J., Schaefer, D. and White, E.H.
The Adirondack Manipulation and Modeling Project (AMMP): design and preliminary results 87
Mudrick, D.A., Hoosein, M., Hicks, Jr., R.R. and Townsend, E.C.
Decomposition of leaf litter in an Appalachian forest: effects of leaf species, aspect, slope position and time 231
Mugasha, A.G. and Pluth, D.J.
^{15}N-Labelled urea fertilization of a tamarack/black spruce mixed stand on a drained minerotrophic peatland: ^{15}N in soil and tree uptake 339
Mugasha, A.G. and Pluth, D.J.
Distribution and recovery of ^{15}N-urea in a tamarack/black spruce mixed stand on a drained minerotrophic peatland 353
Murray, F., *see* Wilson, S.A. et al.
Nagayama, Y., *see* Iwatsubo, G. et al.
Nielsen, T., Kjøller, A. and Struwe, S.
Potential denitrification and N_2O formation in dry European coniferous forest soils 101
Nilsson, U. and Albrektson, A.
Growth and self-thinning in two young Scots pine stands planted at different initial densities 209
Nirmalnath, P.J., *see* Vasanthakrishna, M. et al.
Norton, S.A., Kahl, J.S., Fernandez, I.J., Rustad, L.E., Scofield, J.P. and Haines, T.A.
Response of the West Bear Brook Watershed, Maine, USA, to the addition of $(NH_4)_2SO_4$: 3-year results 61
Perfecto, I., *see* Boucher, D.H. et al.
Pluth, D.J., *see* Mugasha, A.G. et al.
Pluth, D.J., *see* Mugasha, A.G. et al.

Forest Ecology and Management

Subject Index

Acidic deposition
Response of the West Bear Brook Watershed, Maine, USA, to the addition of $(NH_4)_2SO_4$: 3-year results 61
Air pollution
The growth response of sclerophyllous *Eucalyptus* species to SO_2 exposure compared with *Pinus radiata* 161
Atmospheric deposition
A comparison of sites in the EXMAN project, with respect to atmospheric deposition and the chemical composition of the soil solution and foliage 3
Soil and vegetation responses to decreased atmospheric nitrogen and sulphur inputs into a Scots pine stand in the Netherlands 39
The Adirondack Manipulation and Modeling Project (AMMP): design and preliminary results 87
Atmospheric load
Biological response of five forest ecosystems in the EXMAN project to input changes of water, nutrients and atmospheric loads 15
Biodiversity
Conservation of biodiversity in alluvial hardwood forests of the temperate zone. The example of the Rhine valley 385
Biological response
Biological response of five forest ecosystems in the EXMAN project to input changes of water, nutrients and atmospheric loads 15
Boreal mixedwood
Potential conflicts between timber supply and habitat protection in the boreal mixedwood of Alberta, Canada: a simulation study 281
Canopy
Canopy nutrient content of a *Quercus ilex* L. forest: fertilization and irrigation effects 31
Carbon storage
Economic and political feasibility of international carbon offsets 217
Casuarina equisetifolia
Responses of *Casuarina equisetifolia* to inoculation with *Glomus fasciculatum* and/or *Frankia* 399
Catchment liming
Effects of whole catchment liming and Mg addition on soil water and runoff at two forested watersheds in the Black Forest (Germany) 47
The effectiveness of catchment liming in restoring acid waters at Loch Fleet, Galloway, Scotland 107
Chemical composition
A comparison of sites in the EXMAN project, with respect to atmospheric deposition and the chemical composition of the soil solution and foliage 3
Chemical manipulation
The Adirondack Manipulation and Modeling Project (AMMP): design and preliminary results 87
Clearcut site
Effects of site preparation on root zone soil water regimes in high-elevation forest clearcuts 173
Climate change convention
Economic and poiitical feasibility of international carbon offsets 217
Cluster sampling
Comparison of the performance of line sampling to other forms of cluster sampling 365
Competition
Growth and self-thinning in two young Scots pine stands planted at different initial densities 209
Effects of thinning in a 43-year-old Douglas-fir stand on above- and below-ground biomass allocation and leaf structure of understory *Gaultheria shallon* 263
Cultivation
Effects of clearcutting and soil mixing on soil properties and understorey biomass in western red cedar and western hemlock forests on northern Vancouver Island, Canada 251
Decomposition
Decomposition of leaf litter in an Appalachian forest: effects of leaf species, aspect, slope position and time 231
Effects of clearcutting and soil mixing on soil properties and understorey biomass in western red cedar and western hemlock forests on northern Vancouver Island, Canada 251
Defoliation
Management strategies for forest insect defoliators in British Columbia 303
Climate, soils and *Cephalcia arvensis* outbreaks on *Picea abies* in the Italian Alps 375
Denitrification
Potential denitrification and N_2O formation in dry European coniferous forest soils 101

Distribution
Distribution and recovery of ^{15}N-urea in a tamarack/black spruce mixed stand on a drained minerotrophic peatland 353
Disturbance
Resistance and resilience in a directly regenerating rainforest: Nicaraguan trees of the Vochysiaceae after Hurricane Joan 127
Effects of clearcutting and soil mixing on soil properties and understorey biomass in western red cedar and western hemlock forests on northern Vancouver Island, Canada 251
Ecological site quality
Height growth pattern of white spruce in relation to site quality 137
Ecosystem manipulation
Biological response of five forest ecosystems in the EXMAN project to input changes of water, nutrients and atmospheric loads 15
Elevation
Effects of site preparation on root zone soil water regimes in high-elevation forest clearcuts 173
Enhanced greenhouse effect
Economic and political feasibility of international carbon offsets 217
Environmental impact
Economic and political feasibility of international carbon offsets 217
Experimental manipulation
Potential denitrification and N_2O formation in dry European coniferous forest soils 101
Fertilization
Canopy nutrient content of a *Quercus ilex* L. forest: fertilization and irrigation effects 31
Effects of sewage-water spraying on mineral cycling in a forest ecosystem 75
Effects of irrigation and fertilization on stem diameter growth in a Mediterranean holm oak forest 119
^{15}N-Labelled urea fertilization of a tamarack/black spruce mixed stand on a drained minerotrophic peatland: ^{15}N in soil and tree uptake 339
Distribution and recovery of ^{15}N-urea in a tamarack/black spruce mixed stand on a drained minerotrophic peatland 353
Fine-root biomass
Effects of thinning in a 43-year-old Douglas-fir stand on above- and below-ground biomass allocation and leaf structure of understory *Gaultheria shallon* 263
Flooded forest
Conservation of biodiversity in alluvial hardwood forests of the temperate zone. The example of the Rhine valley 385
Foliage
A comparison of sites in the EXMAN project, with respect to atmospheric deposition and the chemical composition of the soil solution and foliage 3
Foliar sulphur concentration
The growth response of sclerophyllous *Eucalyptus* species to SO_2 exposure compared with *Pinus radiata* 161
Forest conservation
Economic and political feasibility of international carbon offsets 217
Forested peatland
Distribution and recovery of ^{15}N-urea in a tamarack/black spruce mixed stand on a drained minerotrophic peatland 353
Forest management
Potential conflicts between timber supply and habitat protection in the boreal mixedwood of Alberta, Canada: a simulation study 281
Management strategies for forest insect defoliators in British Columbia 303
Forest soil
Potential denitrification and N_2O formation in dry European coniferous forest soils 101
Forested peatland
Distribution and recovery of ^{15}N-urea in a tamarack/black spruce mixed stand on a drained minerotrophic peatland 353
Frankia
Responses of *Casuarina equisetifolia* to inoculation with *Glomus fasciculatum* and/or *Frankia* 399
Gallery forest
Leaf-level responses to light and temperature in two co-occurring *Quercus* (Fagaceae) species: implications for tree distribution patterns 149
Genetically improved stock
Using individual tree growth projection models to estimate stand-level gains attributable to genetically improved stock 189
Glomus fasciculatum
Responses of *Casuarina equisetifolia* to inoculation with *Glomus fasciculatum* and/or *Frankia* 399
Growth
Effects of irrigation and fertilization on stem diameter growth in a Mediterranean holm oak forest 119
Modeling individual tree growth using temporary plot records: evaluation of a non-parametric diameter distribution based method 325
Growth parameter
The growth response of sclerophyllous *Eucalyptus* species to SO_2 exposure compared with *Pinus radiata* 161
Growth projection model
Using individual tree growth projection models to estimate stand-level gains attributable to genetically improved stock 189
Habitat suitability model
Potential conflicts between timber supply and habitat protection in the boreal mixedwood of Alberta, Canada: a simulation study 281
Hardwood
Conservation of biodiversity in alluvial hardwood forests of the temperate zone. The example of the Rhine valley 385

Harvest scheduling
Potential conflicts between timber supply and habitat protection in the boreal mixedwood of Alberta, Canada: a simulation study 281
Height curve
Height growth pattern of white spruce in relation to site quality 137
Human alteration
Conservation of biodiversity in alluvial hardwood forests of the temperate zone. The example of the Rhine valley 385
Individual tree growth
Using individual tree growth projection models to estimate stand-level gains attributable to genetically improved stock 189
Modeling individual tree growth using temporary plot records: evaluation of a non-parametric diameter distribution based method 325
Insect defoliator
Management strategies for forest insect defoliators in British Columbia 303
Irrigation
Canopy nutrient content of a *Quercus ilex* L. forest: fertilization and irrigation effects 31
Effects of irrigation and fertilization on stem diameter growth in a Mediterranean holm oak forest 119
Island biogeography theory
Conservation of biodiversity in alluvial hardwood forests of the temperate zone. The example of the Rhine valley 385
Leaf litter
Decomposition of leaf litter in an Appalachian forest: effects of leaf species, aspect, slope position and time 231
Leaf species
Decomposition of leaf litter in an Appalachian forest: effects of leaf species, aspect, slope position and time 231
Light acclimation
Leaf-level responses to light and temperature in two co-occurring *Quercus* (Fagaceae) species: implications for tree distribution patterns 149
Liming
Effects of whole catchment liming and Mg addition on soil water and runoff at two forested watersheds in the Black Forest (Germany) 47
The effectiveness of catchment liming in restoring acid waters at Loch Fleet, Galloway, Scotland 107
Line sampling
Comparison of the performance of line sampling to other forms of cluster sampling 365
Magnesium
Effects of whole catchment liming and Mg addition on soil water and runoff at two forested watersheds in the Black Forest (Germany) 47
Methodology
Modeling individual tree growth using temporary plot records: evaluation of a non-parametric diameter distribution based method 325
Mineral cycling
Effects of sewage-water spraying on mineral cycling in a forest ecosystem 75
Model simulation
The Adirondack Manipulation and Modeling Project (AMMP): design and preliminary results 87
Multiple use
Potential conflicts between timber supply and habitat protection in the boreal mixedwood of Alberta, Canada: a simulation study 281
N_2O formation
Potential denitrification and N_2O formation in dry European coniferous forest soils 101
$(NH_4)_2SO_4$
Response of the West Bear Brook Watershed, Maine, USA, to the addition of $(NH_4)_2SO_4$: 3-year results 61
Nitrogen
Soil and vegetation responses to decreased atmospheric nitrogen and sulphur inputs into a Scots pine stand in the Netherlands 39
^{15}N-Labelled urea fertilization of a tamarack/black spruce mixed stand on a drained minerotrophic peatland: ^{15}N in soil and tree uptake 339
Distribution and recovery of ^{15}N-urea in a tamarack/black spruce mixed stand on a drained minerotrophic peatland 353
Nutrient concentration
The Adirondack Manipulation and Modeling Project (AMMP): design and preliminary results 87
Nutrient content
Canopy nutrient content of a *Quercus ilex* L. forest: fertilization and irrigation effects 31
Nutrient status
A comparison of sites in the EXMAN project, with respect to atmospheric deposition and the chemical composition of the soil solution and foliage 3
Nutrient supply
Biological response of five forest ecosystems in the EXMAN project to input changes of water, nutrients and atmospheric loads 15
Nutritional balance
Soil and vegetation responses to decreased atmospheric nitrogen and sulphur inputs into a Scots pine stand in the Netherlands 39
Open-top chamber
The growth response of sclerophyllous *Eucalyptus* species to SO_2 exposure compared with *Pinus radiata* 161
Peatland
^{15}N-Labelled urea fertilization of a tamarack/black spruce mixed stand on a drained minerotrophic peatland: ^{15}N in soil and tree uptake 339
Pest management
Management strategies for forest insect defoliators in British Columbia 303
Photosynthesis
Leaf-level responses to light and temperature in two co-

occurring *Quercus* (Fagaceae) species: implications for tree distribution patterns 149
Picea
Climate, soils and *Cephalcia arvensis* outbreaks on *Picea abies* in the Italian Alps 375
Picea glauca
Height growth pattern of white spruce in relation to site quality 137
Pinus sylvestris
Soil and vegetation responses to decreased atmospheric nitrogen and sulphur inputs into a Scots pine stand in the Netherlands 39
Growth and self-thinning in two young Scots pine stands planted at different initial densities 209
Qualea
Resistance and resilience in a directly regenerating rainforest: Nicaraguan trees of the Vochysiaceae after Hurricane Joan 127
Quercus
Leaf-level responses to light and temperature in two co-occurring *Quercus* (Fagaceae) species: implications for tree distribution patterns 149
Quercus ilex
Canopy nutrient content of a *Quercus ilex* L. forest: fertilization and irrigation effects 31
Effects of irrigation and fertilization on stem diameter growth in a Mediterranean holm oak forest 119
Recovery
Resistance and resilience in a directly regenerating rainforest: Nicaraguan trees of the Vochysiaceae after Hurricane Joan 127
Distribution and recovery of ^{15}N-urea in a tamarack/black spruce mixed stand on a drained minerotrophic peatland 353
Rhizome biomass
Effects of thinning in a 43-year-old Douglas-fir stand on above- and below-ground biomass allocation and leaf structure of understory *Gaultheria shallon* 263
Root zone soil water
Effects of site preparation on root zone soil water regimes in high-elevation forest clearcuts 173
Runoff
Effects of whole catchment liming and Mg addition on soil water and runoff at two forested watersheds in the Black Forest (Germany) 47
Runoff chemicals
Effects of sewage-water spraying on mineral cycling in a forest ecosystem 75
Sawfly
Climate, soils and *Cephalcia arvensis* outbreaks on *Picea abies* in the Italian Alps 375
Seasonal pattern
^{15}N-Labelled urea fertilization of a tamarack/black spruce mixed stand on a drained minerotrophic peatland: ^{15}N in soil and tree uptake 339
Seedling
Establishment of six tree species on deep-tilled minesoil during reclamation 273
Sewage-water spraying
Effects of sewage-water spraying on mineral cycling in a forest ecosystem 75
Silvicultural implications
Effects of thinning in a 43-year-old Douglas-fir stand on above- and below-ground biomass allocation and leaf structure of understory *Gaultheria shallon* 263
Simulation model
Potential conflicts between timber supply and habitat protection in the boreal mixedwood of Alberta, Canada: a simulation study 281
Site classification
Height growth pattern of white spruce in relation to site quality 137
Site index
Height growth pattern of white spruce in relation to site quality 137
Site preparation
Effects of site preparation on root zone soil water regimes in high-elevation forest clearcuts 173
Slope aspect
Decomposition of leaf litter in an Appalachian forest: effects of leaf species, aspect, slope position and time 231
Soil
The Adirondack Manipulation and Modeling Project (AMMP): design and preliminary results 87
Potential denitrification and N_2O formation in dry European coniferous forest soils 101
^{15}N-Labelled urea fertilization of a tamarack/black spruce mixed stand on a drained minerotrophic peatland: ^{15}N in soil and tree uptake 339
Soil composition
The effectiveness of catchment liming in restoring acid waters at Loch Fleet, Galloway, Scotland 107
Soil nutrient availability
Effects of clearcutting and soil mixing on soil properties and understorey biomass in western red cedar and western hemlock forests on northern Vancouver Island, Canada 251
Soil solution
A comparison of sites in the EXMAN project, with respect to atmospheric deposition and the chemical composition of the soil solution and foliage 3
Soil and vegetation responses to decreased atmospheric nitrogen and sulphur inputs into a Scots pine stand in the Netherlands 39
Soil water
Effects of whole catchment liming and Mg addition on soil water and runoff at two forested watersheds in the Black Forest (Germany) 47
Effects of site preparation on root zone soil water regimes in high-elevation forest clearcuts 173
Spacing
Growth and self-thinning in two young Scots pine stands planted at different initial densities 209

Stand-level gain
Using individual tree growth projection models to estimate stand-level gains attributable to genetically improved stock ... 189
Statistical precision
Comparison of the performance of line sampling to other forms of cluster sampling ... 365
Stem diameter growth
Effects of irrigation and fertilization on stem diameter growth in a Mediterranean holm oak forest ... 119
Stomatal conductance
Establishment of six tree species on deep-tilled minesoil during reclamation ... 273
Sulphur
Soil and vegetation responses to decreased atmospheric nitrogen and sulphur inputs into a Scots pine stand in the Netherlands ... 39
Tallgrass prairie
Leaf-level responses to light and temperature in two co-occurring *Quercus* (Fagaceae) species: implications for tree distribution patterns ... 149
Temperature tolerance
Leaf-level responses to light and temperature in two co-occurring *Quercus* (Fagaceae) species: implications for tree distribution patterns ... 149
Temporary plot
Modeling individual tree growth using temporary plot records: evaluation of a non-parametric diameter distribution based method ... 325
Timber quality
Growth and self-thinning in two young Scots pine stands planted at different initial densities ... 209
Tree class
Growth and self-thinning in two young Scots pine stands planted at different initial densities ... 209
Uptake efficiency
Distribution and recovery of ^{15}N-urea in a tamarack/black spruce mixed stand on a drained minerotrophic peatland ... 353
Uptake pattern
^{15}N-Labelled urea fertilization of a tamarack/black spruce mixed stand on a drained minerotrophic peatland: ^{15}N in soil and tree uptake ... 339
Vesicular arbuscular mycorrhiza
Responses of *Casuarina equisetifolia* to inoculation with *Glomus fasciculatum* and/or *Frankia* ... 399
Vochysia
Resistance and resilience in a directly regenerating rainforest: Nicaraguan trees of the Vochysiaceae after Hurricane Joan ... 127
Water acidity
Response of the West Bear Brook Watershed, Maine, USA, to the addition of $(NH_4)_2SO_4$: 3-year results ... 61
Water potential
Establishment of six tree species on deep-tilled minesoil during reclamation ... 273
Water quality
The effectiveness of catchment liming in restoring acid waters at Loch Fleet, Galloway, Scotland ... 107
Watershed
Effects of whole catchment liming and Mg addition on soil water and runoff at two forested watersheds in the Black Forest (Germany) ... 47
Response of the West Bear Brook Watershed, Maine, USA, to the addition of $(NH_4)_2SO_4$: 3-year results ... 61
Water stress
Climate, soils and *Cephalcia arvensis* outbreaks on *Picea abies* in the Italian Alps ... 375
Water supply
Biological response of five forest ecosystems in the EXMAN project to input changes of water, nutrients and atmospheric loads ... 15
Wildlife habitat
Potential conflicts between timber supply and habitat protection in the boreal mixedwood of Alberta, Canada: a simulation study ... 281
Windthrow
Effects of clearcutting and soil mixing on soil properties and understorey biomass in western red cedar and western hemlock forests on northern Vancouver Island, Canada ... 251
